

app.temperature_simulation.run
_temperature_simulation

```
graph LR; A[app.temperature_simulation.run  
_temperature_simulation] --> B[app.temperature_simulation.calculate  
_simulated_temperature]; A --> C[app.temperature_simulation.validate  
_simulation_parameters];
```

The diagram illustrates a function call structure. A central box on the left, with a gray background, contains the text 'app.temperature_simulation.run' followed by '_temperature_simulation' on a new line. Two blue arrows originate from the right side of this box. The top arrow points to a white box on the right containing 'app.temperature_simulation.calculate' followed by '_simulated_temperature' on a new line. The bottom arrow points to another white box on the right containing 'app.temperature_simulation.validate' followed by '_simulation_parameters' on a new line.

app.temperature_simulation.calculate
_simulated_temperature

app.temperature_simulation.validate
